# 2018 ASCE Upstate 10<sup>th</sup> Annual Bridge Event

## Greenville County Schools 4<sup>th</sup> Grade Challenge Program

### Things to keep in mind at the event...

- Testing will begin at 9:00 AM and will continue until all bridges have been tested. Please arrive early in order to locate your school testing station.
- Bridges are NOT tested in alphabetical order by school. If possible, a listing of schools and testing locations will be sent out before the event.
- Some seating will be available along the perimeter of the event (testing is not viewable from seated areas).
- Parents attending with students must supervise them at all times.
- Please allow students to stand at the front of the line in order to watch the testing of their school's bridges.
- Please do NOT touch any bridges prior to testing.
- The acoustics are not perfect for this type of event, so please listen carefully. Signs will be used as available to help alleviate some sound issues.
- The top three teams in each scoring category will be announced as quickly as possible following the completion of all testing.
- Sales of t-shirts will be cash, check or credit card.

\*\*All “workers” at the event are volunteers. If there are any questions or concerns about the testing or rules, please direct them to teachers or the volunteer coordinator.
